FILTERLESS HOODS

FABER is back with its new concept of Chimney without filter which is a low maintenance product as there is no need of regular cleaning. The "Filter Less Hood" has the quality of making less noise, which removes the scope of disturbance while cooking. Faber provides filter less hood with various elegant designs, which allows you to choose according to your already established décor. Also this product has better suction efficiency as compared to regular hoods available in the market and comes with a Black duct cover.

These Filter Less Hood is made up of Black Tempered Glass which gives your hood better strength than the ordinary glass. It has Metal Blower, operating cost of blower is low and it also provides with clean air and has no danger of oil droplets or residue.

TECHNOLOGY

"I HAVE QUIT SMOKING IN THE KITCHEN."

INTRODUCING THE WORLD'S ONLY 3D HOOD WITH T2S2 TECHNOLOGY.

Now, it's easy to cook in a healthier environment. Faber 3D chimneys' T2S2 technology provides **3-way suction** that draws out pollutants such as SO₂, NO and CO from your kitchen. Join the **#QuitSmokingInTheKitchen** movement today and start cooking in a healthier, smoke-free environment.

25% Higher Suction Area* • 15% Better Grease Reduction* • 10dB(A) Noise Reduction*

Technology (Noise Reduction)

SIL-K: Technology That Brings You Silence:

The Silence Key (Sil-K) technology brought to you exclusively by FABER in India, makes your kitchen 16 times quieter!

- ❖ Sil-K-xp: Reduces hood sound by 12-dB(A)
- ❖ 16 hoods equipped with Sil-K-xp make the same noise as 1 hood without it
- ❖ Uses aeronautical engineering principles
- ❖ Sound emissions from diffuser and filters are almost eliminated

Patented 3Layer Baffle Filter Designed For Indian Oily Cooking

Zero Clogging - Effective suction and avoids overloading of motor.

Easy to Clean - Hassle free maintenance

Saves Electricity - Zero clogging ensures efficient suction even at lower speeds.

Cut and Chop Technology - Separate oil, water vapour, spices from the smoke and collects them in stainless steel strips to extract odour effectively

Constructed from Stainless steel - Filter to last a Lifetime hence no replacement cost.

Ensuring OVER 90% * efficiency, baffle filters create an impenetrable barrier for grease. With a patented FABER design, these filters have been devised so that vapours have to suddenly chop and change direction, thereby separating the grease particles and making extraction as quiet as possible. The baffle filters are made of STAINLESS STEEL, making them extremely hard-wearing and giving the hood a very professional appearance. In Addition : They are easily cleaned in the dishwasher or washed by hand.
